

SAVAGE ATTACK ON NON-UNION MEN.

Occurred at Chicago Stockyards.
Eight People Being Very
Severely Injured.

WOMEN DRAGGED FROM CARS.

Were Badly Beaten Before the Police
Arrived—Mob Was Finally
Dispersed.

Chicago, Sept. 12.—Two savage attacks were made upon non-union workers at the stock yards tonight, and in the fights that followed eight people were injured, four of them so severely that it was necessary to take them to hospitals.

The first disturbance occurred at the intersection of Halstead and Root streets. Two young women, Annie Cook and Mattie Jasper, were on an eastbound Root street car, and when it reached Halstead street several men and boys, with the aid of two or three women, boarded the car and dragged the young women to the street. Both were badly beaten before the police arrived. They were taken to the hospital. Mattie Jasper was struck with a brick, and her face and forehead badly cut.

The mob remained at a short distance from the car track and continued to throw stones. A westbound car, which happened to pass during the trouble was struck by several of the missiles, and two of the passengers, Phemott Sloan and Annie Crodane, were injured.

Anton Ahnra, a driver for a brewery, tried to drive through the crowd, and was hit in the back of the head with a brick and knocked from his wagon. His scalp was badly cut, but otherwise his injuries were not severe.

A call for help had been sent in by one of the officers and Lieut. Prim and six policemen soon arrived and at once charged the crowd, which scattered. Policeman Chris Lyons was knocked down by a stone, but was not badly hurt.

A second riot took place in Root street near Princeton avenue, where seven colored men employed in the stock yards were attacked by a large crowd of sympathizers with the stock yard strikers. John Sims, one of the colored men, was knocked down and kicked nearly to death. His knee cap was broken, his jaw was broken and he was badly injured about other portions of his head, and severely hurt in the chest. The police finally dispersed the mob, and several arrests were made.

Fairbanks at Oyster Bay.

Oyster Bay, N. Y., Sept. 12.—Senator Fairbanks, Republican candidate for president, is a guest tonight of President Roosevelt at Sagamore Hill. Senator Fairbanks said that he had been on the move almost continuously since he came east, and that the campaign work had been very agreeable. His health is excellent, and he is enjoying his experience in the campaign. He declined to discuss in detail his political observations, but indicated that so far as he could secure the situation was quite satisfactory from his point of view.

Senator Fairbanks said his visit to the president was of a personal rather than of public interest. They would discuss many questions relating to the campaign, as he might not see the president again before election.

He will leave here early tomorrow morning, as he is going to Saratoga to attend the Republican state convention on Wednesday. Later he will speak at Elmira, N. Y., Wilmington and Dover, Del., Baltimore, and perhaps at some other places, and on the 21st inst. he will leave for the west to take an active part in the campaign there. He probably will extend his campaign tour to the Pacific coast.

Butte Saloon Held Up.

Butte, Mont., Sept. 12.—Five masked men held up and robbed the saloon of Cooper at 1101 East Tabor street early this morning, and secured \$11 in cash. Bartender E. J. Cummings was hit over the head with a gun and suffered a severe scalp wound. Three of the men entered the saloon, while the others stood guard at the outside doors. Those who entered carried two guns each. Five men playing cards in the saloon were compelled to throw up their hands and face the wall. The robbers brought a jimmy with them and worked for about 10 minutes trying to force the safe open, but gave up in disgust. There was over \$1,000 in the safe. The bandits refused to take watches from the victims.

St. Louis, Sept. 12.—A warrant has been issued for the arrest of Capt. A. Keithly, former commanding officer of the Philippine constabulary, stationed at the world's fair, who has been missing since Aug. 29, on the charge of embezzling \$2,000 and \$4,000 of government funds. The warrant was issued at the instance of Maj. Amos D. Haskell, who came to St. Louis a few weeks ago from Manila to assume charge of the constabulary.

On Aug. 26 Capt. Keithly asked for three days' leave of absence on the ground of illness and the furlough was granted. When the three days had expired he asked for another leave of absence for the same time, saying that his child was very ill, and that he was compelled to go home. Maj. Haskell

IRRIGATION ACT.

Secy. Shaw Discusses Responsibility for Its Enactment.

Denver, Colo., Sept. 12.—Secy. of the Treasury Leslie M. Shaw addressed a large audience at Coliseum hall tonight. He touched on all the issues of the campaign, but devoted considerable time answering the claim that the Democratic party was responsible for the passage of a national irrigation law, the bill as adopted originating with Senator Newlands of Nevada.

Secy. Shaw admitted the entire delegation in Congress from arid states favored irrigation for more than a decade, and many bills were introduced looking to the reclamation of arid lands. These men, he said, would have been retained to private life had they not done their utmost for irrigation. It was different with the representatives from humid states; none were willing to risk their political fortune on an aggressive espousal of irrigation, but when President Roosevelt submitted his message to Congress in December, 1901, conditions changed.

"That message gives Theodore Roosevelt the distinction of being the first to risk his own political fortunes by espousing the cause of irrigation," said Secy. Shaw. "With absolute justice to every man who has ever lifted voice or pen in behalf of national irrigation, history will credit Theodore Roosevelt with what has thus far been accomplished, and it will mention no other name as rival." Secy. Shaw goes from Denver to Kansas City.

Morgan and Wright Start Up.

Chicago, Sept. 13.—After an idleness of two weeks the plants of Morgan & Wright and the Mechanical Rubber company have been opened without an agreement with the Rubber workers' union.

The two companies employ under normal conditions 1,000 men. Nearly that number of workers, it was said, applied as individuals for employment, but half of them were told to come back later, as it was impossible to start the plants with full forces. The men hired were former union members, the companies claimed.

Forest Fire in Montana.

Anaconda, Mont., Sept. 12.—A large forest fire is raging in the mountains west of this city and a hoisting works and shaft house, together with a bunk and boarding-house, have been destroyed. The big boarding-house of the Webb quarry is threatened.

Close to the burning timber are some valuable farms and much damage will result should the flames spread to them. The big dome conveying water to the Washoe copper smelters was saved after a hard fight with the fire, though another flume belonging to the company is in danger. A number of prospectors' cabins have been burned. The timber in the vicinity of the Blue Eyed Nellie mines is dense and much valuable timber is being destroyed.

The whole mountain is a mass of flames and at night the sight is a spectacular one, the long lines of flaming pines being visible for miles around. Another forest fire on the mountains east of Anaconda is assuming alarming dimensions. The fire is spreading toward the summits of the densely wooded ranges north of the Blue Eyed Nellie. The flames can be plainly seen from the city. The smoke coming from the fire is very heavy.

Dynamite has been used in an effort to check the flames, but little good has been accomplished. It is presumed that careless campers are responsible for the blaze, which is destroying many thousands of dollars' worth of timber and other property. The fire is more than six miles from the city.

A Dozen People Injured, Including a Woman from Ogden, Many Dangerously.

Reno, Nev., Sept. 12.—A head-on collision at Lawton, a small station seven miles west of Reno, on the Southern Pacific, occurred at 11:30 this morning.

Wrecking crews are now at work and all available physicians and nurses have been sent from here to the relief of the injured.

It is now believed that the list of injured will be considerably increased, but that none of the passengers' injuries will prove fatal.

The bodies of the dead have just reached Reno and the injured will be brought here on a special train.

The accident was the result of disregard of orders.

The dead are: Fireman Hicks of No. 5, and an unknown man. They were scalded to death.

SEVEN PERSONS BURNED TO DEATH

Six Others Seriously Injured in a New York City Tenement House Fire

THRILLING ACTS OF BRAVERY.

Firemen and Police Saved Many Lives—Twenty Families Were In Peril.

New York, Sept. 12.—Six persons in one family and an unidentified man were burned to death and six others were injured seriously in a fire which partially destroyed a tenement building at Nos. 120 First street, early today. More than 20 families were asleep in the building and thrilling acts of bravery accompanied their rescue, which was accomplished by firemen and the police.

It was shortly after 2 o'clock when the alarm was given. Owing to the danger of the fire in such a crowded section police reserves from three precincts were hurried to the scene. Within the few moments that had elapsed the flames were found to have gained great headway from the first floor and the neighborhood was in a panic of terror. Women and children were being dropped from the windows of the lower floors and dozens of groaning persons were fighting in the hallways to reach the open air. A policeman clambered to the roof of an adjoining building and by clinging to the cornice with the smoke pouring into his face reached down to the windows of the fifth floor and raised seven children who were handed out by their parents. Another officer, winding a coat about his head, entered the building from below and rolled down the stairs the body of a half suffocated man. Three times the officer came back carrying two persons in his arms. Then he fell exhausted.

Meantime, ladders had been run to the top of the building and firemen, clambering up, rescued at least 30 tenement dwellers who were about to jump. Men sought to reach the firemen first, but were thrust back while the women and children were taken out. One fireman, although badly hurt, took seven persons down a single window on the fourth floor. When the work of rescue had been completed and the flames had been under control the firemen hurriedly searched the crowded flats and on the fourth floor they found a dead man. They were:

Onda Konovitch; Anna Konovitch, his wife; Konovitch, grown son; Konovitch, second son; Twin babies of Konovitch family, three months old.

Unidentified man found dead on top of building.

Those injured sustained their hurts chiefly by jumping from the lower floors, but many received severe burns. The financial loss was small.

Police Capt. McDermott and the firemen who first reached the burning building believe the fire was of incendiary origin. The janitor of the building says that an attempt to set fire to the tenement was made last Thursday night, when a burning broom that had been sprinkled with kerosene was found in the hallway.

SHOT HIS COMPANION.

Mott Sands Mistook Charles Wittala for a Deer.

Neihart, Mont., Sept. 12.—Mistaken for a deer, Charles Wittala was instantly killed yesterday by Matt Sands. The two men were members of a camping party and were thinking of hunting an animal in the early morning, was leaving camp when Sands, aroused by his friend's movement, and thinking him to be a deer, blazed away with a rifle, sending a bullet clear through Wittala's head.

The two men killed were Jackson Duncan, a young white man, and Jim Riley, a negro. The latter was killed by a stray bullet.

Population of Oregon.

Salem, Ore., Sept. 12.—According to the figures of State Labor Commissioner O. P. Hoff, the population of Oregon is at present 470,024 against 413,526 in 1900, an increase of 58,488. In making his computation the commissioner found that the number of children of school age who are not attending school is increasing at an alarming rate. The legislative assembly in 1903 made a law compelling the attendance at school of children under the age of 14 years in order to correct this evil, but Commissioner Hoff's statistics indicate that no apparent effort is being made to enforce the law.

HEINZE DEMOCRATS OUSTED.

Mayor Sounded Riot Call and Summoned All the Police.

Butte, Mont., Sept. 12.—When the executive committee of the Silver Bow Democracy sought the auditorium today to open the county convention they found the hall occupied by the Heinze Democrats, who had taken possession of the place at 8 o'clock this morning. The Heinzeites refused to move and as the regulars had hired the hall and paid for it, they appealed to the mayor. Mayor Mullins, with 20 policemen, hurried to the auditorium and tried to induce the Heinzeites to leave. They refused, whereupon the mayor ordered the riot alarm sounded. For the first time in 10 years, since the railway riots, the great bells in the city hall pealed forth the call. Fifty policemen from outlying districts responded and with this force Mayor Mullins returned to the hall and cleared it by force. The Heinzeite convention adjourned to the county courthouse, where a convention was held by them on the steps this afternoon.
